SUMMARY OF REPORTS ON ILLICIT TRANSACTIONS AND SEIZURES OF NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES

Received by the Secretary-General
from 1 October to 31 December 1983

The present document is based on data provided by States both Parties and non Parties to the relevant treaties on the control of narcotic drugs and psychotropic substances, and the designations employed and the presentation of material do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or any authority, or concerning the delimitation of any frontiers or boundaries.

Note by the Secretary-General

The Secretary-General has the honour to send herewith a summary of reports on illicit transactions and seizures of narcotic drugs and psychotropic substances communicated by governments to the Secretariat during the period 1 October to 31 December 1983.

The summary has been prepared in accordance with the decision taken by the Commission on Narcotic Drugs at its twenty-second session (E/4455, para. 732) to leave its form to the discretion of the Director of the Division of Narcotic Drugs.

Section 1 of the summary lists the countries or territories which sent in seizure reports during the fourth quarter of 1983, relating to drugs seized between 1980 and 1983. Data regarding seizures made prior to 1982 have been omitted as no longer of topical interest. Thus, the total quantities of drugs reported seized and shown in Section 2 relate only to 1982 and 1983.

The tables in Section 3 group the reports by the quarter of calendar years 1982 and 1983 in which the seizure was made. Within each of these quarters reports are summarized by region, country or territory, and drug. Within each category individual seizure reports are grouped according to the information provided regarding the country or territory where the drug was obtained and/or produced, the means of conveyance, and the intended destination. Seizures with these features in common are thus shown grouped on one line. The number and nationality of the persons implicated in that group of reports are indicated wherever possible.

V.84-83767

Information reported to the Secretary-General regarding seizures of psychotropic substances is given under the following headings:

Stimulants:	amphetamines, other stimulants;
Depressants:	barbiturates, tranquillizers, other sedatives;
Hallucinogens:	LSD, mescaline, DET, etc.

Details of clandestine laboratories, as well as a list of merchant ships on which drugs were found, and details of which it has been possible to identify with certainty, are given in Annexes I and II.

The term "controlled delivery" is used to describe a technique which allows, under close surveillance, the known passage of an illicit consignment of drugs to take place within or between countries.

Any supplementary information requested by governments will be supplied where available.

1. List of countries/territories having submitted reports during the fourth quarter 1983
